

Bryan's Bio for CW

Peer Support Specialist

I have been with HopeWorx since 1998 and carry a Dual Role Position being Peer Support Specialist and Lead Maintenance Technician taking care of various duties in the aspect of building upkeep.

I help with various groups and members whom visit CW on a daily basis dealing with Interaction and Support. I assist members with activities of daily living, helping attend to member needs, matters and as-well provide aid in crisis support.

I also provide aid with Outreach Matters for those whom visit CW needing pantry items being both dry goods and frozen items from our limited pantry, plus clothes and cosmetics from our Outreach Inventory.

I always believed anything is possible with peer support and sharing in what our humanity has taught us being compassion.
